

Stop OSMP's new dog Laws!

Boulder for reasonable open space

B4ROS.com

- ◆ **Revocation of access and DUI-like reeducation (at your expense) for V&S rules violations rather than simple fines!**
- ◆ **\$732,000 for new administrative/enforcement costs. These additional costs are not for your protection but to enforce your conformance with these proposed new laws.**
- ◆ **Your dog must come IMMEDIATELY when called. No exceptions.**
- ◆ **Your dog may not wander ahead or lag behind.**
- ◆ **Working dog discipline and behavior required of all dogs.**
- ◆ **Tell Council to not implement these new laws!**
- ◆ **Single click protest e-mails available at B4ROS.com!**

View the proposal!

Email Council!

OSMP has used your tax dollars to prepare and fund unnecessary changes to the Voice and Sight program. These changes will have only 'social' impact (memo to council 6/18/13), designed solely to reduce dog related 'conflict' on open space. This perceived conflict is supported by a controversial and methodologically flawed study paid for by OSMP to counter previous studies conducted by CU. Voice and Sight dog guardians will face increased fees, penalties and revocation of V&S open space access as well as DUI style re-education for an enhanced range of infractions. No other open space user cohort is governed by regulation of this scope and magnitude.
